

G. UJJWAL SHREYAS

Full-Stack Developer - CS Undergraduate — 3rd Year

📞 6302759866 ✉ ujjwalshreyasg@gmail.com 🔗 www.linkedin.com/in/ujjwalshreyasg 🌐 www.github.com/UjjwalShreyas

Summary

Third-year B.Tech Computer Science student with a track record of building and shipping production-grade full-stack applications for real clients. Experienced across the full stack — React, Next.js, TypeScript, Node.js, Express, Supabase, and AI/LLM integration. Comfortable taking a feature from idea to deployment independently. Seeking a full-stack engineering internship to contribute meaningfully across the stack in a fast-moving team.

Experience

Osmania Technology Business Incubator (OTBI), Osmania University

July 2026 – August 2026

Full-Stack Developer Intern

Hyderabad, Telangana

- Built Aaharika, an AI-powered smart pantry and nutrition tracking web application for Indian households, as part of a three-person startup team incubated at OTBI.
- Developed the full-stack architecture using Next.js, React 19, TypeScript, Tailwind CSS v4, and Supabase PostgreSQL for real-time data sync.
- Integrated Google Gemini Vision (2.0-flash) API to power intelligent food recognition and nutritional analysis from user-captured pantry images.
- Implemented Google OAuth authentication, real-time meal tracking, and inventory management across a responsive web interface.
- Live working site : <https://aaharikaotbi.vercel.app>

Technical Skills

Languages: JavaScript, React, TypeScript, Python, Java, C, C++

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, Vite, Responsive Design

Backend: Node.js, Express.js, REST API Design

AI / LLM: Groq API, LLaMA 70B, Google Gemini 2.0, Prompt Engineering, Generative AI

Databases: PostgreSQL, MySQL, SQL, Supabase, Oracle Database, Relational DB Design

DevOps & Tools: Git, GitHub, Vercel, Render, Oracle Cloud Infrastructure

Data & Analytics: Tableau, Excel, Data Visualization, Business Intelligence

CS Fundamentals: OOP, Data Structures, Algorithms, Agile, Debugging, Testing

Projects

CODARA — AI-Powered Code Analysis Platform | *React, Vite, Node.js, Express, Groq (LLaMA 70B), Gemini 2.0*

- Architected and shipped a full-stack AI platform that analyzes code snippets and entire GitHub repositories across 6 dimensions — explanations at 3 levels, architecture mapping, bug detection, interview prep, and personalized learning roadmaps.
- Built a custom static analysis engine from scratch detecting deep nesting, unused imports, long functions, and duplicate logic — zero dependency on third-party linters.
- Live working website : <https://thecodara.vercel.app>
- Designed a two-tier AI fallback system (Groq → Gemini) ensuring high availability despite free-tier rate limits, with CORS security, rate limiting, and malicious payload detection.

Psychologist Booking Website — Live Client Project | *Next.js, TypeScript, Supabase,*

sumakavitha.online

- Delivered a production full-stack web application for a practicing counselling psychologist with 1,500+ clients — live and actively serving real appointment bookings.
- Implemented real-time appointment scheduling, session type selection, a verified review system, and a contact form backed by Supabase PostgreSQL.
- Managed the full client relationship — requirements gathering, iterative feedback, and zero-downtime deployments on Vercel.

Personal Portfolio Website | *Next.js, TypeScript, Tailwind CSS, Vercel*

ujjwalshreyas.vercel.app

- Designed and built a personal portfolio website showcasing projects, skills, and background — fully responsive and deployed on Vercel.

Education

Vignan Institution of Technology and Science, Hyderabad <i>B.Tech — Computer Science</i>	2024 – 2028 <i>CGPA 9.0</i>
Excellencia Junior College, Hyderabad <i>Intermediate — State Board</i>	May 2024 <i>90.3%</i>
Ravindra Bharathi School, Hyderabad <i>Secondary School (SSC)</i>	May 2022 <i>CGPA 9.8</i>

Certifications & Simulations

- Data Analytics Job Simulation — Deloitte Australia (via Forage), Jan 2026: designed interactive Tableau dashboards visualizing regional sales performance, profit distribution and learnt about Data Analytics
- Cybersecurity Job Simulation — Deloitte Australia (via Forage), Feb 2026: worked through a simulated incident response, diagnosing root cause and drafting a remediation plan; analyzed web server logs to flag suspicious access patterns.
- Programming in Java — NPTEL (AICTE Swayam) · 2025
- Generative AI for All — Infosys Springboard · 2025
- AI for All — Infosys Springboard · 2025
- Oracle Cloud Infrastructure — Oracle · 2025

Additional Information

Languages: English, Telugu, Hindi
Volunteer: NSS
Interests: Football, Philosophy, Music, Cinema

Declaration

I hereby declare that all the information provided in this resume is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details mentioned above.
