PROFESSIONAL SUMMARY

Third-year B.Tech Computer Science student with hands-on experience building and shipping real-world web applications for live clients. Proficient in full-stack development (Next.js, React, TypeScript), data analytics, and AI-powered tooling. Seeking a CS internship to contribute meaningfully across the stack and grow in a fast-moving engineering environment.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend & Databases: Python, C, C++, Java, SQL, MySQL, Oracle 10g

Tools & Platforms: Git, GitHub, Tableau, Excel, Oracle Cloud Infrastructure, Vercel, Supabase

Concepts: REST APIs, Responsive Design, UI/UX Principles, Data Visualization, AI/LLM Integration

PROJECTS

Psychologist Booking Website [Next.js · TypeScript · Supabase · Tailwind CSS]

Full-stack web application built for a real client — a practicing counselling psychologist in Hyderabad with 10+ years of experience and 1,500+ clients. Features live appointment booking, session type selection, a verified review system, and a contact form. Deployed in production serving real users.

[GitHub →](#) [Live Site →](#)

Undetectify — AI Text Humanizer [Next.js · TypeScript · Groq API · Vercel]

AI-powered tool that rewrites AI-generated text to sound human-written. Integrates Groq's LLM API for fast inference, runs fully client-side with zero data stored, and is open-source. Live on Vercel with active users.

[GitHub →](#) [Live Site →](#)

Inventory Manager [C · File Handling · CLI]

CLI-based inventory management system with full CRUD operations, auto-generated product IDs, low-stock alerts, and CSV export. Demonstrates strong systems programming fundamentals and persistent data management without external libraries.

[GitHub →](#)

Sales Data Analysis Dashboard [Tableau · Excel · Data Analytics]

Interactive dashboard visualizing regional sales trends, profit distribution, and market performance across multiple dimensions. Demonstrates end-to-end data storytelling and business insight generation.

[GitHub →](#)

YouTube Video Downloader [Python · Tkinter · yt-dlp]

Cross-platform desktop GUI app for downloading YouTube videos with URL input, format selection, download control, and local file management using a clean Tkinter interface.

WORK EXPERIENCE

Data Analytics Job Simulation

Jan 2026

Deloitte Australia — Forage

- ▶ Built a Tableau dashboard to visualize business performance metrics, enabling clearer stakeholder reporting across multiple data dimensions
- ▶ Performed dataset classification and forensic data analysis in Excel, deriving actionable business conclusions from raw records

Cyber Security Job Simulation

Feb 2026

Deloitte Australia — Forage

- ▶ Guided a simulated client through a full cybersecurity breach response scenario, identifying root cause and outlining remediation steps
- ▶ Analyzed web activity logs to detect suspicious user behavior patterns and flag potential security incidents

EDUCATION

B.Tech — Computer Science <i>Vignan Institution of Technology and Science, Hyderabad</i>	2024 – 2028 (Expected)
Intermediate (State Board) <i>Excellencia Junior College, Hyderabad</i>	May 2024 · 90.3%
Secondary School (SSC) <i>Ravindra Bharathi School, Hyderabad</i>	May 2022 · CGPA 9.8

CERTIFICATIONS

- Programming in Java — NPTEL (AICTE Swayam) · 2025
- AI for All — Infosys Springboard · 2025
- Generative AI for All — Infosys Springboard · 2025
- Oracle Cloud Infrastructure (75% score) — Oracle · 2025 [View →](#)

ADDITIONAL INFORMATION

Volunteer: NSS — community service drives, cleanliness campaigns, and public awareness programs
Languages: English · Telugu · Hindi
Interests: Football, Philosophy & Literature, Music, Cinema
